# The practices address

shared ways  
of working in  
the team

technologies  
you employ

processes  
you have  
followed

the work  
environment  
you share

*Dmytro Golodiuk*

[golodiuk.com](http://golodiuk.com)

I'm  
excited  
to join  
you all

Make improvement visible and manageable.

The best practices will only work for disciplined and persistent teams.

It takes time to master best practices and that will require an investment in time.

Implement one best practice but in a complete way -- instead of doing multiple ones partially.

---

Dmytro Golodiuk
